Professional Summary

Frontend developer specialized in React.js & Next.js with a strong MERN foundation. I build fast, accessible, and scalable interfaces, turn Figma/UI specs into clean, reusable components, and push performance through code-splitting, lazy-loading, and optimized asset pipelines. Comfortable collaborating across product/design/BE, owning features end-to-end, and improving DX (component architecture, linting, CI-friendly structures).

Experience

Front-end Developer | TJAARA

Sep 2024 – Present

- Developed semi-CMS platforms with Next.js frontends and React dashboards for data control.
- Built pixel-perfect themes based on Figma UI designs, applied across multiple projects.
- Delivered a **full dashboard** application from scratch, with scalable structure and reusable components.
- Created and deployed **responsive HTML emails** aligned with brand identity.
- Currently focused on **bug fixing, refactoring, and codebase improvements**, ensuring performance and scalability.
- Provide mentorship to team members, guiding them on best practices, refactoring strategies, and clean code principles.

Full Stack Developer | 4Design for Advertising and Marketing

(1 year, 4 months)

Full Stack Developer

Jan 2024 – Sep 2024

- Built and maintained **WordPress websites** and custom coded web applications (frontend + backend).
- Delivered full projects independently: from client requirements to deployment.
- In later stages, collaborated with a UI designer to refine and implement interfaces.
- Mentored a remote PHP developer, providing guidance on development practices.

Freelance Full Stack Developer

May 2023 – Jan 2024

- Building and maintaining scalable and secure web applications.
- Designing and implementing custom CMS solutions to meet clients' unique requirements, resulting in increased efficiency and user engagement.

Website Administrator | Genius By Heba Torad

May 2021 – Aug 2022 (1 year, 3 months)

- Managed websites built on **New Zenler platform**, handling updates, content, and full website administration.

- Collaborate with cross-functional teams to optimize website performance, user experience, and SEO.
- Ensured responsive design, correct data integration, and smooth user experience without heavy coding

Education

Ain Shams University | Faculty of Business Credit Hours System

(Jun 2022)

B.Sc. Financial Markets & Institutions | GPA: 3.46

Career shift into software development through self-study and hands-on projects.

Technical Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), SCSS, Tailwind, Bootstrap Three.js, React Three Fiber.
- **State/Patterns:** React Hooks, Context, Redux (when applicable), Redux Saga, modular routing, form architecture.
- **Performance/SEO:** Code-splitting, lazy loading, image optimization, SSR/SSG, metadata/structured data.
- **Backend Foundation:** Node.js, Express.js, REST APIs, Web sockets (Socket.io).
- **Databases:** MongoDB, MySQL, Firebase.
- **Cloud/Tools:** Git/GitHub, AWS (S3, EC2), Vercel/Netlify/Render, CI/CD pipelines.

Projects

- **Information Fortress Cybersecurity — Next.js, Redux Saga. (Dec 2024)** [\[Production Link\]](#)
 - A bilingual informative website optimized for performance and SEO, delivered under Nourseen.
 - Implemented responsive design and localization to deliver a seamless user experience across languages and devices.
 - Delivered as part of my role at Tjaara.
- **Athman Al Emtiyaz — Next.js, Redux Saga. (Oct 2024)** [\[Production Link\]](#)
 - A bilingual informative website optimized for performance and SEO, delivered under Nourseen.
 - Implemented responsive design and localization to deliver a seamless user experience across languages and devices.
 - Delivered as part of my role at Tjaara.
- **3D T-Shirt Configurator — React, Three.js, React Three Fiber. (Aug 2024)** [\[Live Demo\]](#) | [\[Github\]](#)
 - 3D T-Shirt customization tool allowing users to design and preview t-shirts with personalized text, logos, and colors.
 - Implemented real-time rendering using Three.js + React Three Fiber for a smooth user experience.
- **Personal Portfolio Website — React, Three.js, React Three Fiber. (Jun 2024)** [\[Live Demo\]](#) | [\[Github\]](#)
 - Built a fully responsive portfolio showcasing my skills, projects, and experience as a web developer.

- Optimized for performance, SEO, and user experience across desktop and mobile devices.
- **WOMS Website — React.js, Bootstrap. (Dec 2023)** [\[Live Demo\]](#) | [\[Github\]](#)
 - A web-based solution for managing workflow and orders for a medical business.
 - Built using React.js with a focus on user experience and responsiveness.
- **AI Phoronya Website — React.js, Bootstrap. (Sep 2023)** [\[Live Site\]](#) | [\[Github\]](#)
 - A real estate platform showcasing properties with an intuitive and modern interface.
 - Built with React.js and optimized for performance across web and mobile devices.
- **Premium Club ASU Website— React.js. (Jan 2022)** [\[Live Site\]](#) | [\[Github\]](#)
 - Developed a fully responsive website for a student organization at Ain Shams University.
 - Implemented multi-page navigation, event pages, and user-friendly UI/UX for students and visitors.

Certificates

- **MongoDB Node.js Developer Path.** [\[Credential \]](#)
- **Front-end UDACITY participation Certificate.** [\[Credential \]](#)
- **Full stack UDACITY participation Certificate.** [\[Credential \]](#)
